

The Mission of the Bayfront Advisory Committee is to:

- Continue to identify, refine and reprioritize a series of recommended projects and actions to the City Council for implementing the adopted Shore Drive Corridor Plan, Transportation Plan, Design Guidelines and Landscaping Guidelines, and to address issues associated with the public safety and development of the Corridor;
- Encourage and facilitate alternative funding sources to achieve the goals and recommendations of the ULI Study and the adopted plans and guidelines;
- Engage in public information efforts to improve communications between the Bayfront community, the neighborhoods and businesses, the development community, and the City government, and to serve as a forum for discussion of information brought forth by both the public and private sectors on matters related to the Bayfront's unique and diverse community; and
- Monitor and report to the City Council the progress of implemented public projects and plans within the Shore Drive Corridor, and provide recommendations for remedial actions as deemed necessary.
