

Sandbridge Beach Civic League

Virginia Beach, Virginia

April 17, 2021

Dear Mayor Dyer:

During a recent City Council meeting, it was asked who in Sandbridge supports a trash recycling program? The civic league whole hardily supports this program and helped raise funds along with the Sandbridge Business Owners Association for the purchase of over 80 recycle trash containers several years ago. These were to be used at all beach access points. Our understanding was that the program was very successful but discontinued due to funding priorities.

One of our missions is to support the community through green initiatives in support of a beautiful beach. Recycling is key to this effort and we request the City's support in reestablishing this worthwhile program. Thank you for your help in this matter

Respectfully,

Andrew Roper
President
Sandbridge Beach Civic League
