Consultants, Builders and Developers Notice #2019-04-17

April 17, 2019

Topic: Public Utilities Approved Products List Update

The Department of Public Utilities has updated and published a new Approved Products List. Selecting products from the Approved Products List for use in water and sanitary sewer construction streamlines shop drawing submittal review and guarantees approval by Public Utilities. Any products that are not on the Approved Products List for which shop drawings are submitted will require evaluation and approval by the Department of Public Utilities prior to use.

The updated Approved Products List can be found at the following link:

www.vbgov.com/PUapprovedproducts.

Effective Date: Immediately
