

Consultants, Builders and Developers Notice #2019-05-02

May 2, 2019

Topic: Draft Public Works Design Standards Manual Review and Comment Period

The City of Virginia Beach is presenting the Draft Public Works Design Standards Manual, 2019 for review and comment.

Background

The current version of the Public Works Specifications and Standards was first adopted by the City Council in 1994. When established, the document was a compilation of the current development related standards, policies, procedures, specifications and details. The document also contained a mix of both private (on-site) infrastructure requirements and requirements for public infrastructure. Since 1994 the document has been updated 9 times to its current format.

The document has been updated and restructured by a committee of City and private stakeholders to provide the design community with a focused document delivering design standards for public and private infrastructure. The name of the document will be changed to the Public Works Design Standards Manual.

You are encouraged to review the Executive Summary, the Summary of Revisions and the Draft Public Works Design Standards Manual located on the Public Works website and forward written comments to PWDesignStandards@vb.gov. The final version of Design Standards Manual will be reformatted and contain hyperlinks throughout the manual.

The public review and comment period will remain open through June 30, 2019. Additionally, a meeting with the development community stakeholders will be held to discuss the draft document on Thursday, June 13th at the TCC ATC, 1700 College Crescent in the Theater from 9:30 am to 11:30 am. Additional information regarding this meeting will be sent out through a separate notice closer to the meeting date.

Upon completion of the public review, all comments will be considered, and appropriate comments/revisions will be incorporated into the final document. The final Public Works Design Standards Manual will be presented to the City Council for their approval.

Resource Location

The Executive Summary, the Summary of Revisions and the Draft Public Works Design Standards Manual may be found on the Public Works Website or use the following hyperlinks; [Executive Summary](#), [Summary of Revisions](#) and [Draft Public Works Design Standards Manual](#).
