**Topic: Change to Meter Fees**

Effective April 1, 2022, Public Utilities will update water meter fees for meters sized 1½-inch or larger and detector checks of all sizes. As specified in City Code Section 37-7, a fee shall be paid for the installation of water meters at actual cost to the City. The existing fees, based on a previous water meter contract, no longer adequately represent actual cost to the City. The updated fees are provided in the table below. No change is proposed to 5/8-inch and 1-inch meters at this time. These rates will be charged for all fees paid after April 1, 2022, including fees paid for projects approved prior to that date.
