DSC Information Notice #188 February 28, 2012

Topic: Public Utilities Design Standard Manual Update

Background

Public Utilities has reorganized the Design Standards Manual to become more intuitive, provide additional clarity, and for better long term maintenance. The revised Manual is identified as the January 2012 Edition and will ultimately replace the existing manual. Public Utilities is requesting comments prior to finalizing the new manual.

Resource Location

The updated **Design Standards Manual** may be found on the Public Utilities/ Engineering & Construction/Standards & Forms/Standards Webpage by selecting the *Draft Design Standards Manual Update* link in the middle of the page or use the following hyperlink [DSMU](#).

Comments must be received by: April 13, 2012
