### DSC Information Notice #214 August 25, 2014

#### Topic: Public Utilities Design Standards Manual Update

In an effort to stay current with standards and regulations, the Department of Public Utilities has updated the PU Design Standards Manual. The current edition identified as the July 2014 Edition replaces the previous version. The following sections have been added or updated.

- **Section 2.3.6:** *Utility Easements*
- **Section 3.7.2.1.1:** *Dry Pit Submersible*
- **Section 3.8.12:** *Standard Connection Requirements*
- **Section 3.9.6:** *Force Mains*
- **Sections 4.1.7 and 3.1.6:** *Surface Water Crossings*
- **Section 4.9:** *Water System/Component Abandonment*
- **Various Sections:** *to incorporate [DSC Information Notices 189 and 200](#)*

#### Resource Location:

The updated Design Standards Manual may be found at the following link:  
<http://www.vbgov.com/government/departments/public-utilities/Engineering-Construction/Standards-Forms/Pages/Standards.aspx>

Select the *Design Standards* link in the middle of the page.
