Notes:

This list is for general planning purposes only. This is not a comprehensive list of all approved uses within APZ-1. Variations of uses listed may not be compatible. This inventory does not address matters of compatibility as they may apply within APZ-2, the Clear Zone, or AICUZ related noise zones. Final discretion rests with the Zoning Administrator. Economic incentives may be available but are not guaranteed.

Sources: Use categories have been derived by searching North American Industry Classification System (NAICS) codes. Compatible uses have been determined by provisions of the City Zoning Ordinance as determined under Table 2 of Section 1804. Standard Land Use Coding Manual (SLUCM) numbers listed under the 2002 OPNAV Instruction 11010.36B have also been used in determinations of compatibility within APZ-1.
