

**BILL SAMMLER  
WARNING COORDINATION METEOROLOGIST  
NATIONAL WEATHER SERVICE  
WAKEFIELD, VA**

**Bill is the external/emergency management liaison at the Wakefield office, which serves central and eastern Virginia, northeast North Carolina, and the Lower Maryland Eastern Shore. He coordinates with state and local emergency managers, state agencies, the media, and other National Weather Service customers, to ensure that National Weather Service products and services meet their needs. Bill participates in various training initiatives, and assists with a variety of weather related exercises.**

**Bill came to Wakefield in April 1994, after spending the first 10 years of his nearly 35 year National Weather Service career at the National Severe Storms Forecast Center in Kansas City, MO (now the Storm Prediction Center in Norman, OK), issuing nationwide forecasts for severe thunderstorms and tornadoes. He has received several awards including the 2005 National Hurricane Conference Outstanding Achievement Award in Meteorology.**

**A native of southern New Jersey, Bill and his family live near Petersburg, Virginia. He has a Bachelor's of Science Degree in Meteorology from Rutgers University, and a Master's of Science in Meteorology from St. Louis University.**
