

Kurt J. McCoy
Hydrologist
United States Geological Survey

Kurt is a Hydrologist in the Virginia-West Virginia United States Geological Survey, Water Science Center.

He started his career as a Hydrologist with the USGS in Charleston, West Virginia and then on to offices in Albuquerque, New Mexico.

Kurt currently works with the USGS in Richmond, Virginia where his focus is on the development of regional water budgets, use of geophysical data to monitor and limit groundwater withdrawal, and development of novel approaches for groundwater monitoring.

Kurt serves as secretary of the International Standards Organization Committee on groundwater and he recently organized the Hampton Roads Water Symposium to discuss water related issues in coastal environments of Virginia.

Kurt has authored or coauthored over 20 publications and has presented this work at many national and regional conferences.

He has a Bachelor of Science Degree from the College of Charleston and he holds a Master's Degree in Geology from West Virginia University.
