We Can Help Because... **WEcam**

The Witness Electronic Camera Program, or WEcam, is a proactive and innovative approach to fighting crime that involves a partnership between the Virginia Beach Police Department and residents of the communities they serve.

If a crime occurs in your area, know that you can help by registering for this voluntary program and assisting the police with solving crimes in your neighborhood.

Our police officers or detectives may use surveillance footage provided by residents to help with investigations where there may be little, if any, leads.

The video footage captured and information you provide could make a critical difference in the amount of crimes the police are able to solve.

Join our WEcam network of businesses and residents by registering today via:
