**Subject: Virtual Community Information Meeting
SA 420 New Colony Sanitary Sewer Replacement (CIP 6-552)**

Hello Neighbor!

Virginia Beach Public Utilities welcomes you to participate in a Virtual Community Information Meeting for an upcoming sanitary sewer replacement project in your neighborhood. This meeting will be held online via Webex at 6:00 p.m. on Thursday, February 25th. During this meeting, we will discuss the project details, schedule, and impacts. At the end, we will address any questions or concerns from residents.

Project Description

Next winter, Virginia Beach Public Utilities will begin work in the backyard area between New Colony Drive and Old Providence Road to upgrade the sanitary sewer system. Please refer to a map with the project area circled on the other side. This project is anticipated to last 12 months.

Construction during this project will include the replacement of 1,250 feet of gravity sewer lines, 4 manholes, and 65 service connection lines. Residents within the project area should expect the following impacts:

- Construction within the Utility Easements and Temporary Construction Easements.
- Fences within the easements will be removed for the project duration. Upon completion of the project, new fencing will be constructed along the Utility easement.
- Trees and vegetation within the easements will be removed.
- Sheds will be relocated outside of the easement limits.

Community Meeting Information

How to Register:

1. Visit www.vbgov.com/pu-projects and click on the registration link under 'New Colony Sanitary Sewer Project'.
