

3072000 City Hall Replacement

Overview

This project is envisioned to be approximately 150,000 square foot replacement for the City's current City Hall, Building 1. The project site selected is located at the Municipal Complex and is situated in the parking lot south of Buildings 1 & 2. This new facility would provide the additional space needed to properly accommodate City Staff, enhance the delivery of service to the general public and provide the flexibility to support the next 50 years of City government

The project designer is Moseley Architects with their home office in Richmond, Virginia, and a Virginia Beach Office.

The project is in the Study Phase. The design phase is expected to start in October 2017 with the project completion expected in the fall of 2021.
