

## 3292000 Virginia Aquarium Marine Animal Care Center

---

### Overview

---

A new 18,000sf Animal Conservation Center located on Bells Road is being designed to replace the existing 8,300sf facility located on Southern Boulevard. The new facility will provide seawater access, animal care areas to support acquisitions and quarantines, educational outreach, stranded animal rehabilitation, support areas for stranding response and research, laboratory spaces, and office/technical spaces.

The project is being designed by Waller, Todd, & Sadler Architects of Virginia Beach.
