

Eastern Shore Drive Drainage Phase I – Cape Henry Canal Improvements (Project began construction November 4, 2019)

Began working on the first phase of drainage improvements for the Eastern Shore Drive area shown in pink below. The “Interim Cape Henry Canal Drainage Improvements Section 1C.1” project includes a box culvert from Ebb Tide Rd. to W. Great Neck Rd. This project phase will provide a critical drainage “skeleton” ahead of the Shore Drive Phase III roadway improvement project and ahead of future pump stations. Project is anticipated to be a 21 month project.

Crews are currently deployed at the intersection of Starfish Road and North Great Neck Road for the initial construction. The project will include installing stormwater piping, drainage structures, trenching, along with sidewalk and pavement work.

Starfish Road:

Crews will work from 7 a.m. – 7 p.m., Monday through Saturday, from February 3, 2020, through June 1, 2020.

North Great Neck Road:

Northbound - 7 a.m. – 4 p.m., Monday through Saturday (~ 2/1/2020 to 4/4/2020)

Southbound - 7 p.m. Friday to 5 a.m. Monday (~4/5/2020 to 6/7/2020)
