Virginia Beach Seeks Input about Transportation and Parking in Resort Area

PublicInput.com survey is online through January 31

VIRGINIA BEACH, Va. (Jan. 12, 2021) — Residents and visitors can help shape the future of transportation, parking and other elements in the City's Resort Area by participating in a new survey.

The survey is available at <https://publicinput.com/ResortMobility2021> through January 31. Responses will be used to create the Resort Area Mobility Plan (RAMP), a guide to inform decisions about safety, getting around the resort, parking, streetscapes and overall appearance.

"The steering committee has been working on the Resort Mobility Plan for months. It's very important to have public input into a plan that represents a shared vision for the resort," said Elizabeth "BJ" Baumann, Resort Advisory Commission chair.

For more information on the Resort Area Mobility Plan visit www.vbgov.com/resortmobilityplan.
